The current DoD FAQ is Version 10.1.4, accept no others! It's located at:

#####

Please note: email addresses all are modified to ##
avoid spam, by changing the "@" to " at ". ##

#####

Also please note: If you are sending email to motohead either to get a list or something else - PLEASE use a Subject: that contains the string 'motohead-list' - no quotes, but exactly that string of text. motohead get's so much spam that your email will likely get just deleted if it does not have motohead-list in the subject line.
